ABOUT ME

I am a graduate of BSIT major in Service Management with skills in encoding, basic programming, and design. I have experience working on several projects, including a capstone project. I enjoy creating clean and user-friendly applications and web designs. I am seeking opportunities where I can further develop my technical and creative skills and apply them to real-world tasks.

EDUCATION

BatStateU TNEU JPLPC - Malvar Campus

2021 - 2025

Bachelor of Science in Information Technology (BSIT)

PROJECTS / EXPERIENCE

Municipality of Tanauan

12 February, 2025 - 16 May, 2025

On-the Job Training: System Developer & Encoder

- *Technologies Used:* Microsoft Excel
- *Language Used:* Visual Basic for Applications (VBA)
- Created a Deed Information System using Excel and VBA to efficiently manage and store data, improving accuracy through collaboration with a co-trainee.

Capstone Project: Frontend Developer, Data Entry, Assistant Programmer, UI/UX Designer

2024 - 2025

- *Technologies Used:* Excel, Figma, GitHub, Visual Studio Code
- *Language Used:* Python
- Developed an automated scheduling system that streamlines scheduling tasks. Contributed to frontend development, data entry, programming support, and UI/UX design to ensure a user-friendly and efficient application.

HireAble Prototype: Prototype Developer

2024

- *Technologies Used:* Figma
- Designed user flows and colors for a prototype app that helps users, including deaf and mute individuals, find jobs, communities, and courses.

ToothTeller Prototype: Prototype Developer

2024

- *Technologies Used:* Figma
- Designed the complete prototype to demonstrate how the Tootteller app works, featuring a tooth scanner, geolocation, appointment scheduler, and tips for better dental care.
